9. You will see the screen displayed below. If you are testing via LRP, you can now test your computer to be sure its specifications will allow for the LRP option.

When you click on “Examination Delivery Requirements”, it will initiate the process of verification that the computer you are using is suitable for the testing purposes.

However, if you are scheduling your exam on a computer DIFFERENT from the one you will be testing on, you may bypass this process for now, and continue straight to the scheduling

process. You will be given another opportunity to verify your computer's suitability immediately prior to the exam.

To avoid any delays in your testing, we strongly recommend that you schedule your test using the same computer which will be used for testing.
