

COVID-19 Financial Preparedness Guidance

Federal Trade Commission (FTC):

- In March, FTC created a landing page, ftc.gov/coronavirus, which is also available in Spanish, to provide information on avoiding scams and fraud. FTC is also tracking complaints and reports on COVID-19 related issues. The FTC is especially concerned about reaching older adults and encouraged other agencies to partner with them in communicating with older adults.
- FTC recently produced 11 videos that outline tips on how to avoid coronavirus scams. The videos, which are also available in Spanish, range from teaching the public how to navigate robocalls to coaching individuals on how to identify and steer clear of phishing emails and text messages.
