RESCON[®]
RESTORATION & CONSTRUCTION
GIVING BACK WHAT DISASTER TOOK™

RESCON COVID-19 Sanitize & Disinfect Service

For COronaVirus Disease 2019 (COVID-19)

Using Patented EPA Approved Disinfectant Solution with Industry-Leading RESCON® Process

WHAT IS COVID-19?

It is a novel coronavirus, a new coronavirus that has not been previously identified. The virus causing coronavirus disease 2019 (COVID-19), is not the same as the coronaviruses that commonly circulate among humans and cause mild illness, like the common cold. COVID-19 is an emerging viral pathogen.

THYMOX DISINFECTANT SPRAY

Thymox is a patented technology and is registered with EPA as a broad spectrum hard surface disinfectant spray for Emerging Viral Pathogens.

KILL TIME – THYMOX DISINFECTANT SPRAY

The Bioesque Botanical Disinfectant Solution has **4 minute Kill Time** for Norovirus and SAR-CoV-2 COVID-19 (Coronavirus Disease 2019) > **99.9%**

BIOESQUE BOTANICAL DISINFECTANT SOLUTION

Thymox is an active ingredient (0.23%) in Bioesque Botanical Disinfectant Solution, which has demonstrated effectiveness against viruses similar to Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2) on hard non-porous surfaces. Therefore, Bioesque Botanical Disinfectant Solution can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus (Feline Calicivirus surrogate) on hard, non-porous surfaces. Refer to the CDC website at <https://www.cdc.gov/coronavirus/index.html> for additional information.

Bioesque Botanical Disinfectant Solution is an EPA registered Bleach-Free, Phosphate Free, Non-Corrosive Disinfectant targeting broad-spectrum efficacy. This formula contains no harsh chemicals and does not require any personal protection equipment. Safe for everyday use, Bioesque Botanical Disinfectant Solution is a Ready-to-Use, patented formula. No rinse required – even on food contact surfaces and NSF certified.

** To disinfect Norovirus, let stand for 4 minutes. Follow product label Directions for Use for detailed information.*

RESCON COVID-19 Sanitize & Disinfect Service

THREE REASONS THAT MAKE RESCON SANITIZE & DISINFECT SERVICE UNIQUE

1. Disinfectant Solution

- a. Patented Solution
- b. Green – does not contain bleach or phosphates
- c. Safe on any surface, including contact with food
- d. EPA Approved with Kill Time of 4 minutes (i.e., kills the virus in 4 or fewer minutes with 99.9% probability)

2. RESCON Protocol – Goes Beyond EPA RECOMMENDATIONS

a. Preparation

- i. Make sure the area to be treated is vacated
- ii. Request customer to remove all loose papers or stuff from desktops – if the customer wants RESCON to handle it, it is a separate service that can be offered – not part of this Service
- iii. Close all doors and windows, and use plastic where necessary to seal off the area
- iv. The Technician crew MUST don full PPE with Respirators

b. RESCON Protocol Involving Three steps

- i. HVAC and the Duct system – Using ULV Fogger, the Solution is applied until it comes out the other way and is kept that way for five minutes, to exceed the kill time. **(5 minutes)**
- ii. Electrostatic Spray – Electrostatic Sprayer is used to cover the enclosed area for five minutes, to exceed the kill time. **(5 minutes)**
- iii. Hand Wipe – Hand wipe with a wet wipe in the Solution high-traffic areas, doorknobs, keyboard, etc. Must keep everything wet for five minutes, to exceed the kill time. **(min 5 minutes)**

3. RESCON Technicians

- a. Hand-selected technicians with extensive experience in Bio-Hazard cleaning and disinfection.
- b. Properly trained in the COVID-19 Protocol.

❖ RESCON Sanitize & Disinfect Service is good only to a point in time. The virus can still be tracked back after the sanitization and disinfection process has been carried out.

RESCON COVID-19 Sanitize & Disinfect Service

POTENTIAL CUSTOMERS FOR THIS SERVICE

1. Senior Living Centers
2. Hospitals and Clinics
3. Commercial Offices
4. Shopping Centers/Mall Stores
5. Universities, Schools and Municipalities
6. Churches and Synagogues
7. Libraries
8. Hotels
9. Airports
10. Apartments/Condominiums

ATTACHMENTS

1. Bioesque Botanical Disinfectant Solutions
2. EPA Communications 6.27.2019, Thymox Master Label – EPA Registered

BIOESQUE BOTANICAL DISINFECTANT SOLUTION CAN BE USED AGAINST SARS-CoV-2 COVID-19 (Coronavirus Disease 2019)

Bioesque Botanical Disinfectant Solution has demonstrated effectiveness against viruses similar to **Severe Acute Respiratory Syndrome Coronavirus 2 (SARS-CoV-2)** on hard non-porous surfaces. Therefore, **Bioesque Botanical Disinfectant Solution** can be used against SARS-CoV-2 when used in accordance with the directions for use against Norovirus (Feline Calicivirus surrogate) on hard, non-porous surfaces. Refer to the CDC website at <https://www.cdc.gov/coronavirus/index.html> for additional information.

** To disinfect Norovirus, let stand for 4 minutes. Follow product label Directions for Use for detailed information.*

Bioesque Botanical Disinfectant Solution is an EPA registered Bleach-Free, Phosphate Free, Non-Corrosive Disinfectant targeting broad spectrum efficacy. This formula contains no harsh chemicals and does not require any personal protection equipment. Safe for everyday use, Bioesque Botanical Disinfectant is a Ready to Use, patented formula. No rinse required – even on food contact surfaces and NSF certified.

DIRECTIONS FOR USE:

TO DISINFECT: For use on hard nonporous surfaces. Spot test to check compatibility with the surface. Spray to thoroughly wet the surface to be disinfected. Surfaces must remain wet for 1 minute to eliminate viruses*, 2 minutes to eliminate bacteria, 3 minutes to eliminate fungi and M.bovis BCG (TB), and to disinfect Norovirus, let stand for 4 minutes. Allow to air dry. If desired, wipe dry. No rinse required, even on food contact surfaces.

TO SANITIZE: Spray to thoroughly wet the surface to be sanitized. Surfaces must remain wet for 30 seconds on hard nonporous surfaces and 2 minutes for soft surfaces.

TO CLEAN, DEODORIZE & REMOVE ALLERGENS⁵: Spray on surface and wipe clean. To remove heavy soil let stand a few minutes and wipe clean. For soft surfaces; spray to wet surface and wipe or blot to clean. Always test an inconspicuous area first.

⁵ This product removes the following allergens: dust mite matter, cat dander, dog dander, mouse dander, rat dander, guinea pig dander, cockroach matter, peanut, birch pollen, timothy grass pollen, rag weed pollen.

TO CLEAN VIA FOGGING: This product can be applied effectively with a ULV fogger as a supplement to normal cleaning procedures on restoration and remediation projects in confined, vacant areas of schools, healthcare facilities, and in HVAC systems as well other vacant, indoor areas. It is effective for pre-cleaning or as a supplement to final cleaning. Do not dilute. This product is ready-to-use in ULV foggers. Seal off doors and windows in the area prior to fogging. After fogging, vacate the treated area during the treatment interval as specified by the device manufacturer, and do not re-enter the treated area until all fog has settled or been exhausted. After the treatment interval, ventilate the treated area until the air is purged of all suspended product. Do not operate equipment in the fogged area until the treatment is dry. When fogging as a pre-treatment, follow the cleaning and disinfection procedures on the product label.

Bactericidal, Virucidal, Tuberculocidal, and Fungicidal

- **30 Second Kill Time – SANITIZING KILLS > 99.99%**
 - Staphylococcus aureus
 - Enterobacter aerogenes
- **1 Minute Kill time - VIRUSES KILLS > 99.99%**
 - Swine Influenza A (H1N1)
 - HIV-1 AIDS Virus
 - Human Coronavirus
 - Respiratory Syncytial Virus (RSV)
 - **4 Minute Kill Time:**
 - Norovirus
 - SARS-CoV-2 COVID-19 (Coronavirus Disease 2019)
- **2 Minute Kill Time - BACTERIA KILLS > 99.99%**
 - Staphylococcus aureus (Staph)
 - Salmonella enterica (Salmonella)
 - Pseudomonas aeruginosa (Pseudomonas)
 - Listeria monocytogenes (Listeria)
 - Escherichia coli (E. coli)
 - Escherichia coli (E. coli O157:H7)
 - Streptococcus suis (Streptococcus)
 - Vancomycin-Resistant Enterococcus (VRE)
 - Methicillin-Resistant Staphylococcus Aureus (MRSA)
 - Klebsiella pneumoniae – NDM01 positive
 - **3 Minute Kill Time:**
 - Mycobacterium Bovis BCG (TB; Tuberculosis)
- **3 Minute Kill Time - FUNGI & MOLDS KILLS > 99.99%**
 - Trichophyton mentagrophytes (Athlete's Foot Fungus)
 - Candida albicans

Bob MacDonald
Agent for Laboratorie M2
Scientific & Regulatory Consultants, Inc
201 W. Van Buren Street
Columbia City, IN 46725

Subject: Label Amendment – Add an additional microorganism, Norovirus, to the label
Product Name: Thymox Disinfectant Spray
EPA Registration Number: 87742-1
Application Date: February 06, 2019
Decision Number: 548573

Dear Mr. MacDonald:

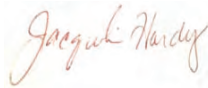

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Stacey Grigsby by phone at 703-305-6440, or via email at grigsby.stacey@epa.gov.

Sincerely,

Jacqueline Hardy, Product Manager (34)
Regulatory Management Branch II
Antimicrobials Division (7510P)

{The following claim may appear on the label:}

[Respiratory illnesses attributable to Severe Acute Respiratory Syndrome ("SARS") are caused by a Coronavirus. Thymox® Disinfectant Spray is a broad-spectrum hard surface disinfectant that has been shown to be effective against other similar viruses.]

{The following claims and instructions may appear on the label:}

***KILLS HIV-1 ON PRECLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids and in which the surfaces/objects likely to be soiled with blood/body fluids can be associated with the potential for transmission of HIV-1 (associated with AIDS).
SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS.

PERSONAL PROTECTION: When handling items soiled with blood or body fluids, use disposable [protective] [latex] gloves, gown, masks and eye protection.
CLEANING PROCEDURES: Blood/body fluids must be thoroughly cleaned from surfaces/objects before application of [Thymox® Disinfectant Spray][this product].
CONTACT TIME: Allow surface to remain wet for 1 minute. A 2 minute contact time is needed for bacteria and a 3 minute contact time for fungi and M. bovis.
DISPOSAL OF INFECTIOUS MATERIAL: Blood/body fluids should be autoclaved and disposed of according to local regulations for infectious waste disposal.

PRODUCT : Thymox® Disinfectant Spray
EPA Reg. No. : 87742-1

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Heavily soiled [or greasy] [area] [surfaces] require a pre-cleaning.

TO CLEAN via Fogging text: This product can be applied effectively with a ULV fogger as a supplement to normal cleaning procedures on restoration and remediation projects in confined, vacant areas of schools, healthcare facilities, and in HVAC systems as well other vacant, indoor areas. It is effective for pre-cleaning or as a supplement to final cleaning. Do not dilute. This product is ready-to-use in ULV foggers. Seal off doors and windows in the area prior to fogging. After fogging, vacate the treated area during the treatment interval as specified by the device manufacturer, and do not re-enter the treated area until all fog has settled or been exhausted. After the treatment interval, ventilate the treated area until the air is purged of all suspended product. Do not operate equipment in the fogged area until the treatment is dry. When fogging as a pre-treatment, follow the cleaning and disinfection procedures on the product label.

{The following use directions for cleaning may appear on the label:}

TO CLEAN [and]&[DEODORIZE][and remove allergens^s]: [Apply][Spray] the product [on] [to] [the soiled] [area][surface] [and]& wipe clean. [To] [dislodge] [remove] [eliminate] [stubborn] [tough] [heavy][stains][dirt][soil] [allow][let] [leave] [product] [to] [stand] [act] [for][1][2][3][4][5][minutes][a few minutes][and]& [wipe clean.] [Heavily soiled surfaces require a pre-cleaning with a non-scratch sponge.] For soft surfaces: spray to wet surface and wipe [or blot] [to clean]. [Always] [test an inconspicuous area first.]

[TO REFILL:] [Remove sprayer. Pour in product from refill container. Replace sprayer]

Air DEODORIZER: Spray this product in your kitchen, bathroom, living room, or anywhere lingering and or unpleasant odors occur in the air to deodorize instantly.

TO DISINFECT: For use on hard non-porous surfaces. Spray to [thoroughly][completely] wet the surface [to be disinfected] with [the][product][spray][Thymox® Disinfectant Spray] [(spot test to check compatibility [with the surface])]. Surfaces must remain wet for 2 minutes to eliminate bacteria [and] 3 minutes to eliminate fungi [.,][.] 3 minutes to eliminate M. bovis BCG [TB] [and] 1 minute to eliminate viruses* [.] To disinfect Norovirus*, let stand for 4 minutes.[Allow to air dry.] [If desired, wipe dry.] *{Fungal, M. bovis, and viral contact times will be listed if these organisms are on container label}**{text will appear as necessary for organisms listed on the container label}*

[On food contact surfaces, no rinse is required][No rinse required, even on food contact surfaces]

Food [products and packaging materials] must be removed or carefully protected prior to using this product.

{The following use directions for sanitization may appear on the label:}

TO SANITIZE: Spray to [thoroughly][completely] wet the surface [to be sanitized] with [the] [product] [spray][Thymox® Disinfectant Spray]. Surfaces must remain wet for 30 seconds on hard nonporous surfaces and 2 minutes for soft surfaces. [No rinsing required.]

Food [products and packaging materials] must be removed or carefully protected prior to using this product. [This product is effective as a Non-Food Contact Sanitizer against Enterobacter aerogenes and Staphylococcus aureus on hard non-porous surfaces in 30 seconds and on soft surfaces in 2 minutes.]

{Alternate soft surface sanitization directions for use:}

[All text in brackets [] is optional and may or may not appear on the printed label] [All text in braces {} is meant to facilitate the reviewer's comprehension of the document, and will not appear on the printed label]

For Garment & Fabric Care: To refresh and deodorize fabrics and garments, spray article/fabric until wet ([but] do not saturate) to eliminate odors. To sanitize and eliminate odors at the source, fabric must remain wet for 2 minutes. Allow to air dry.

TO SANITIZE PRECLEANED FOOD-CONTACT SURFACES: Spray to thoroughly wet the surface. Allow surface to remain wet for 60 seconds and air dry.[No rinsing required.] *{The following directions for Storage and Disposal will appear on the label according to the intended use}*

{The following use directions for Farms Premises and Veterinary use may appear on the label:}

[FARM PREMISES AND VETERINARY USE:

1. Remove all animals and feed from premises, vehicles, and enclosures.
2. Remove all litter and manure from floors, walls and surfaces of barns, pens, stalls, chutes, and other facilities and fixtures occupied or traversed by animals.
3. Empty all troughs, racks, and other feeding and watering appliances.
4. Thoroughly clean all surfaces with soap or detergent and rinse with water.
5. Saturate all surfaces with the disinfecting solution for a period of [3 minutes for fungi] [.,][2 minutes for bacteria] [and/or] [1 minute for viruses*]
6. Immerse all halters, ropes, and other types of equipment used in handling and restraining animals, as well as forks, shovels, and scrapers used for removing litter and manure.
7. Rinse all treated feed racks, mangers, troughs, automatic feeders, fountains and waterers with potable water before reuse.

BARBER/BEAUTY SALON INSTRUMENTS AND TOOLS: Immerse pre-cleaned barber/beauty salon instruments and tools (such as combs, brushes, razors, scissors, blades, and manicure instruments) in ready to use solution for 3 minutes. For heavily soiled instruments and tools, a preliminary cleaning is required. Rinse thoroughly and dry before use. A fresh solution must be prepared daily or more often if solution becomes diluted or soiled.

{NONREFILLABLE HOUSEHOLD OR RESIDENTIAL USE}

STORAGE AND DISPOSAL

Store at room temperature [20-25C][68F-77F] in a secure area inaccessible to children. Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available or discard in the trash.

{HOUSEHOLD OR RESIDENTIAL CONTAINER INTENDED TO BE REFILLED WITH THIS PRODUCT BY USER}

STORAGE AND DISPOSAL

Store at room temperature [20-25C][68F-77F] in a secure area inaccessible to children. Do not reuse or refill this container except as described in the directions for use. Refill only with this product. Offer for recycling if available or discard in the trash.

{NONREFILLABLE CONTAINERS FOR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL USES – ALL SIZES}

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store at room temperature [20-25C][68F-77F]in a secure area inaccessible to children.

PESTICIDE DISPOSAL: Use up product in accordance to use directions. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill empty container. Offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{CONTAINERS FOR COMMERCIAL, INDUSTRIAL AND INSTITUTIONAL USES – ALL SIZES, INTENDED TO REFILLED WITH THIS PRODUCT BY USER}

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store at room temperature [20-25C][68F-77F]in a secure area inaccessible to children.

PESTICIDE DISPOSAL: Use up product in accordance to use directions. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Do not reuse or refill this container except as described in the directions for use. Refill only with this product. If not refilling, offer for recycling or reconditioning if appropriate, or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

{Emerging Viral Pathogen - Request to add Terms of Registration as outlined in Attachment 1 of the guidance document}

Attachment 1

Terms of Registration Associated with the Guidance for Making Claims against Emerging Viral Pathogens Not on EPA-Registered Disinfectant Labels

The following are additional Terms of Registration that EPA anticipates resulting from a request to amend a registration for the reasons addressed in EPA's 2016 Guidance to Registrants: Process for Making Claims against Emerging Viral Pathogens Not on EPA-Registered Disinfectant Labels:

1. The statements shall be made only through the following communications outlets: technical literature distributed exclusively to health care facilities, physicians, nurses and public health officials, "1-800" consumer information services, social media sites and company websites (non-label related). These statements shall not appear on marketed (final print) product labels.

2. Statements shall adhere to one or both of the following formats:

[Product name] has demonstrated effectiveness against viruses similar to **[name of emerging Enveloped or Large, Non-enveloped virus]** on hard, **non-porous surfaces**. Therefore, **[product name]** can be used against **[name of emerging Enveloped or Large, Non-enveloped virus]** when used in accordance with the directions for use against **Norovirus (Feline Calicivirus surrogate)** on **hard, non-porous surfaces**. Refer to the **[CDC or OIE]** website at **[pathogen-specific website address]** for additional information.

[Name of illness/outbreak] is caused by **[name of emerging Enveloped or Large, Non-enveloped virus]**. **[Product name]** kills similar viruses and therefore can be used against **[name of emerging Enveloped or Large, Non-enveloped virus]** when used in accordance with the directions for use against **Norovirus (Feline Calicivirus surrogate)** on **hard, porous surfaces**. Refer to the **[CDC or OIE]** website at **[website address]** for additional information.

3. The registrant may begin communicating these statement(s) upon notification on the CDC or OIE website identified under Section V of the Guidance of an outbreak of an emerging **large non-enveloped, and/or enveloped** viral pathogen. The registrant shall cease and remove all such non-label communications intended for consumers no later than 24 months after the original notification of the outbreak on the CDC or OIE website, unless the agency provides guidance to the contrary due to continued public health concerns. The emerging pathogen claim language may remain on the master label.

4. The registrant agrees that paragraphs 1 through 3 above shall become immediately void and ineffective if registration for use against **[name of supporting virus(es)]** is suspended or cancelled or no longer meets the criteria for a disinfectant claim (see EPA Product Performance Test Guideline 810.2200). In addition, evidence of ineffectiveness against any pathogen in a less-resistant Spaulding category would also be grounds for voiding paragraphs 1 through 3.
