

# MAINTENANCE MANIA!®

**2017 – 2018 Maintenance Mania Season**

## **SmartComfort™ By Carrier® Air Conditioner Repair Game Instructions**

For the 2017-2018 Maintenance Mania season, the SmartComfort™ By Carrier® Air Conditioner Repair will be a new game added to the competition. The training video has not yet been released, so the following instructions will serve as a supplemental resource until the video is available.

**Image of Air Conditioner Game Display:**

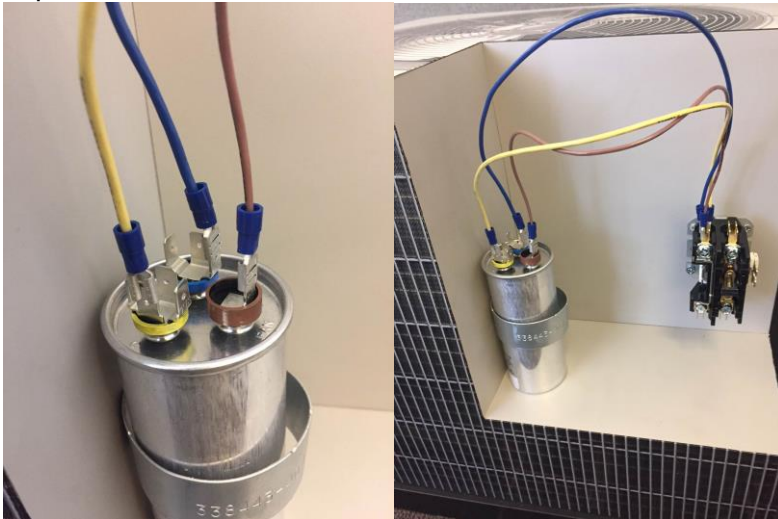

- Mount the new capacitor inside of the bracket.

- Connect the wires from the contactor to the matching colored quick connects on the capacitor.

6. Place the old capacitor in the tote and return the tote to the starting area beyond the checkered line on the table.
7. Place both hands on the timer to stop the time.

### **Judge Inspection:**

The judge will review the following requirements to certify the game was completed successfully:

- New capacitor is inserted upright in the mounting bracket.
- All three wires are connected to the three matching colored quick-connects on the new capacitor.
- Old capacitor and tote are in the starting area beyond the checkered line on the table.
- All wires on the contactor are still engaged and were not disconnected during game play.

A callback will be applied if any of the above requirements are not completed on the first pass.
